

Global leader in sustainable and innovative fiber-based solutions

- Fibers are at the core of what we do and the common denominator for our products and solutions
- Natural fibers represent 95% of our total fiber use
- We offer custom made specialized fiber based materials
- Our value proposition is based on innovation, quality and service
- Our offering contributes to a more sustainable everyday life

Key facts

- Global network of sales offices and 45 plants in 14 countries
- Approximately 8,000 employees, 48 nationalities
- More than 7,000 customers in over 100 countries
- Pro forma 2019 net sales of approximately EUR 3 billion
- Shares listed on Nasdaq Helsinki and Stockholm
- Head office in Helsinki, Finland

Key strengths

- Leading positions in chosen segments
- Operating on growing markets
- Balanced geographical exposure to a broad range of end-uses
- Designed sustainable and innovative customer solutions

Our portfolio of businesses

Portfolio management

Developing Decor business into a stand-alone leading global operation

- Potential mergers, acquisitions and joint ventures with Chinese suppliers
- Investigating the possibility to attract outside capital
- Letter of intent to acquire a Chinese decor manufacturer with state-of-the art assets for EUR 60 million

Creating a growth platform for the profitable Liquid Technologies business

- Acquisition of converting operations in China and the U.S.
- Debt free purchase price USD 11 million (EUR 9.3 million)
- Net sales about USD 7 million and comparable EBITDA USD 2 million

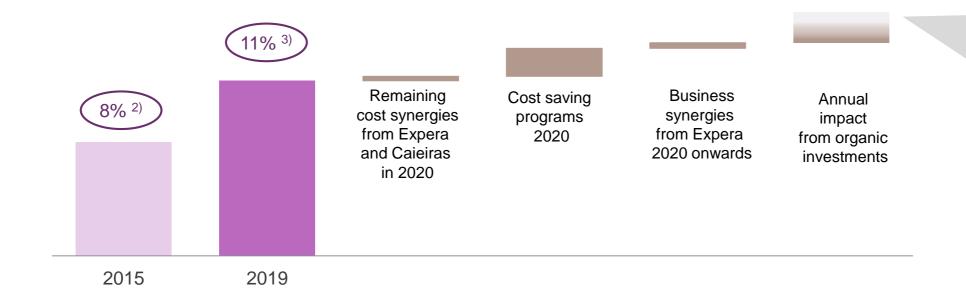

Divestments

Sale of fine art paper business

- Debt free purchase price EUR 44 million
- Net sales about EUR 13 million and comparable EBITDA EUR 4 million
 Sale of glass fiber reinforcement business
- Debt free purchase price EUR 6.5m
- Net sales about EUR 30 million, no material impact on Group comparable EBITDA

We continuously take actions to improve our competitiveness¹⁾

Variations in volumes, selling prices and raw material costs also impact profitability

Smart solutions out of fibers

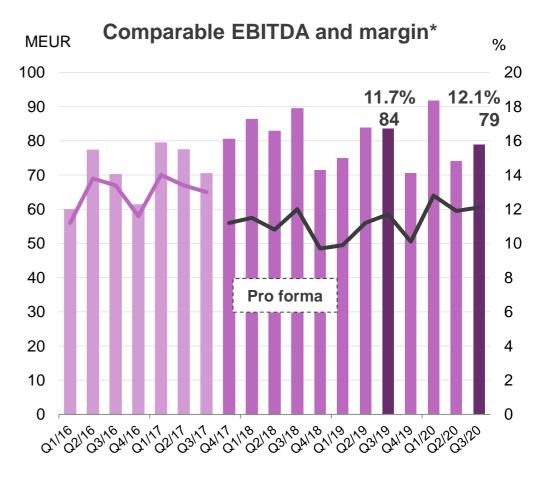

Q3/2020 Business and financial review

Solid result and cash flow

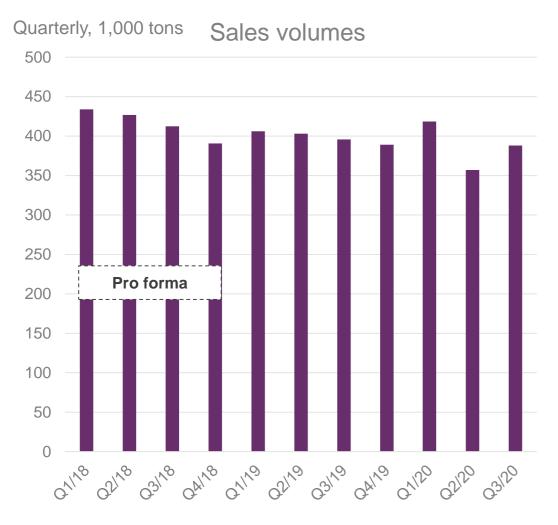

- Solid comparable EBITDA and increased margin in Q3
- Strong recovery in demand for transportation and furniture related products
- Sales volumes recovered from a low level in Q2/20, remaining still below the Q3/19 level
- Solid cash flow and improved financial position
- Launch of lead acid battery product portfolio
- World-class Net Promoter Score achieved in an external customer survey
- Recommended public cash tender offer for all Ahlstrom-Munksjö shares
- Comparable EBITDA in 2020 is expected to be in the range of EUR 315-335 million (EUR 313 million in 2019)

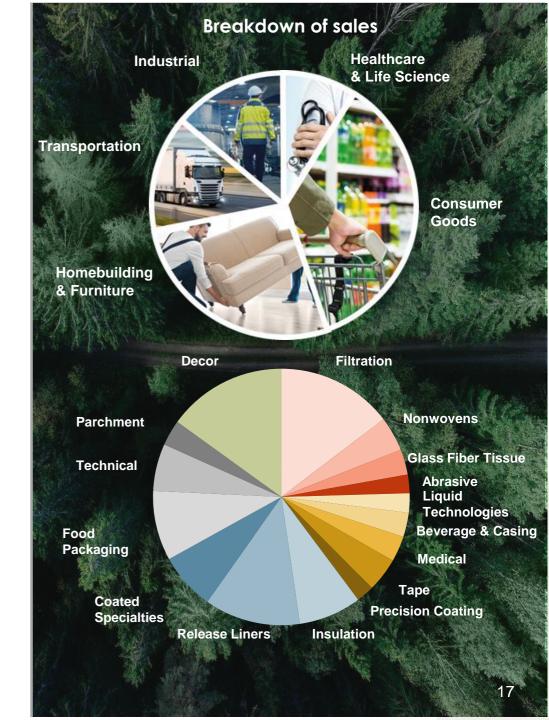

^{*}Years 2016-Q3/2017 Ahlstrom-Munksjö excluding NASS and Caieiras

Q3/20 deliveries up 9% compared to Q2/20, remaining 1%* below Q3/19

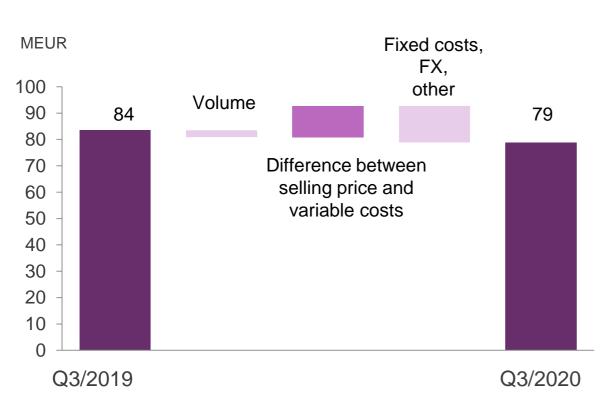

^{*}excluding divestments

Q3 2020 supported by lower variable costs

Comparable EBITDA Q3/2020 vs Q3/2019

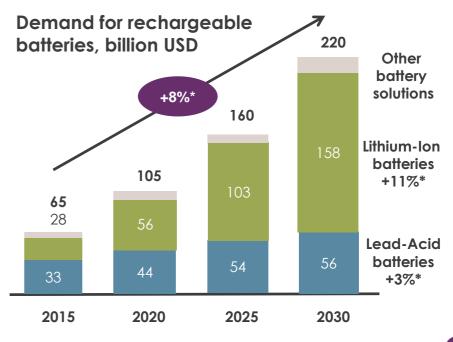

EBITDA impacted by:

- Slightly lower volumes and selling prices
- Lower raw material prices
 - Costs savings measures
- Fixed costs impacted by the timing of the scheduled maintenance shutdowns

Entering the energy storage market – First product launch in Q3/2020

- Ahlstrom-Munksjö FortiCell® a platform of fiber-based energy storage solutions
 - Complete range of fiber-based solutions for lead acid batteries as the first launch in Q3/2020
 - Further product launches to come
- Fiber-based materials play an essential role in the performance and development of advanced energy storage technologies. Materials are mainly used as separators in energy storage applications such as batteries.
- Electricity is the fastest growing source of energy and demand for energy storage is expected to grow significantly, driven by:
 - vehicle electrification
 - shift towards renewable energy
 - increasing demand of stationary applications
 - effective electricity supply chain management
- Demand for rechargeable batteries is estimated to double in the next
 10 years
- Ahlstrom-Munksjö offers extensive expertise in cellulose, microglass and specialty nonwoven materials

New coating machine for formaldehyde free coating in Billingsfors, Sweden

- EUR 7 million investment into a more sustainable coating machine in Billingsfors, Sweden
- Enables formaldehyde free balancing and finish foils for furniture, as well as building and construction industries
- Increases manufacturing capacity and allows expansion to new geographical markets, it also increases utilization of the pulp mill at the plant
- The new coating machine will also reduce CO2 emissions by an estimate of 20%, further strengthening position as a supplier of sustainable fiber-based solutions
- The new machine is expected to be fully commissioned in the fourth quarter of 2021

Improving customer satisfaction – Total results of Ahlstrom-Munksjö Customer Survey 2020

- Reinforced position as global leader in fiberbased solutions
- Strong performance in our Customer Barometer Index, improvement since 2017
- Outperforming competition in meeting customer expectations in many areas, and particularly in personal contact and technical service as well as in innovation and sustainability
- Our Net Promoter Score rating is World Class for a manufacturer in B2B relationship
- Conducted by Opticom International Research

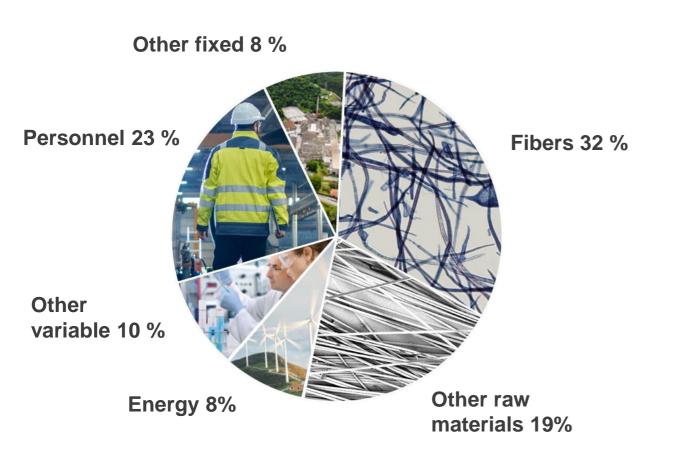

Net sales impacted by selling prices and FX

Net sales impacted by: Deliveries (cont. ops.) -1% Selling prices -4% Product mix +1% FX, divestments -5%

Lower costs mitigated negative impact of slightly lower prices and volumes in Q3/2020

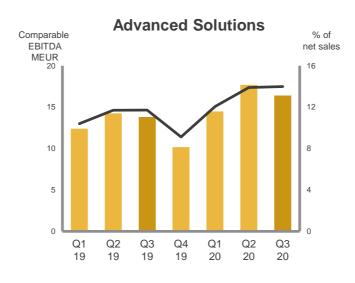

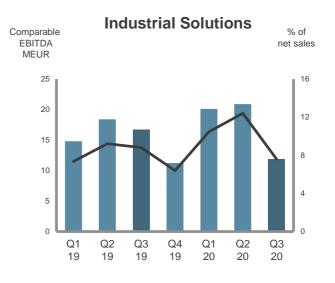

Lower costs in Q3/20 compared to Q3/19

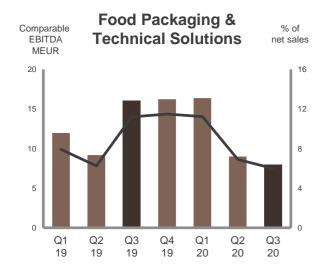

- Lower raw material costs
- Lower energy costs
- Variable cost savings in procurement and from continuous improvement actions
- Fixed costs rose slightly, mainly due to the timing of the scheduled maintenance shutdowns

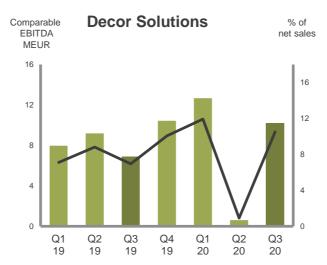

Comparable EBITDA margin improved in three business areas

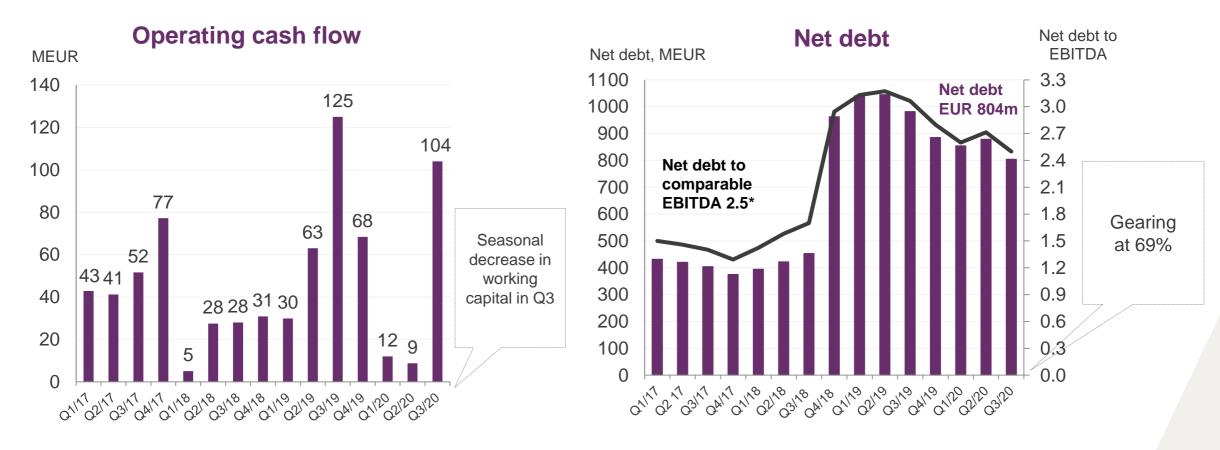

Solid cash flow, lower net debt

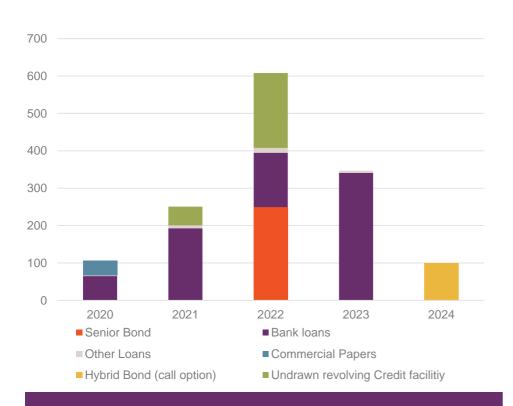

^{*} The implementation of the IFRS 16 standard is excluded from debt covenant calculations

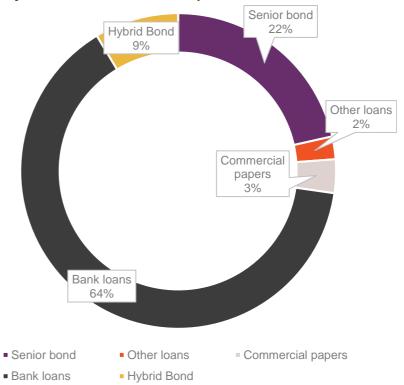

Strong liquidity - Maturity profile and debt structure

Maturity profile as of Sept. 30, 2020

- Cash position EUR 305 million
- Available undrawn committed facilities EUR 261 million

Interest-bearing liabilities including hybrid bond as of Sept. 30, 2020

- Weighted average interest rate 2.6% (excl. hybrid bond and lease liabilities)
- Net interest expense EUR 48 million in 2019, EUR 28 million in Q1-Q3/2020

Income Statement

EUR million, or as indicated	Q3/20	Q3/19	Q1-Q3/20	Q1-Q3/19

Provisions	33.7	37.1
Total equity and liabilities	3,170.1	3,201.2

Seasonal decrease in working capital items.

- Equity impacted by EUR 60 million dividend
- Negative translation effect of EUR 66 million
- Equity includes EUR 100 million hybrid bond

Outlook 2020

The gradual increase in customer activity translated into a broad-based recovery across the company's businesses during the third quarter of 2020.

The overall demand for Ahlstrom-Munksjö's products is expected to remain at a rather good level in the fourth quarter of 2020, albeit with some variation depending on the end use of the products.

Ahlstrom-Munksjö's comparable EBITDA in 2020 is expected to be in the range of EUR 315-335 million (EUR 313 million in 2019). The latest development in the pandemic has further increased uncertainty.

Conclusions

- Solid comparable EBITDA and increased EBITDA margin in Q3
- Strong recovery in demand for transportation and furniture related products
- Solid cash flow and improved financial position
- Strong progress in customer satisfaction survey results
- Comparable EBITDA in 2020 is expected to be in the range of EUR 315-335 million (EUR 313 million in 2019)

Ahlstrom-Munksjö COVID-19 Safety Protocol: Securing safety of employees and business continuity

Focus on cash and securing financing

Securing customer, supplier owner/investor relationships

Adapting to lower demand and reducing costs

Structural changes and new ways of working

New business development

Resume M&A when time is right

Resume growth investments

Accelerate innovation

From Safety Protocol to "new way"

Focus on sales and commercial excellence

Strategy adaptation to "new normal"

We fight the pandemic with high-quality filters and life science diagnostics materials

Components used in rapid test kits for fast detection of medical conditions

Efficient and convenient screening of infectious diseases, human identification and genetic mapping

Filter media for artificial respiratory devices

Virus and contaminants removal for safe drinking water

We fight the pandemic with barrier protection materials

Surgical drapes, gowns and apparel

- Innovative single-use medical fabrics used in drapes, gowns and apparel protecting workers in the operating room
- Providing clinical and cleanroom environments a wide range of products for all levels of protection, keeping health care workers and patients safe and comfortable

Sterile barrier systems

 Range of rolled and sheeted fabrics that can be used for sterilization wraps, packaging systems and absorbent tray liners

Broad offering in face masks to support different purposes

Civil Face Mask Material

- Civil face masks to protect people in the street, shops and on transportation against projections of saliva
- Higher protection compared to use of textile
- Our solutions for civil face mask include filtration layers, face mask laces and coverstock material
- On-going process to establish a European wide standard for civil masks

Surgical Face Mask Material

- Surgical face masks to protect health care workers and patients during surgery and nursing
- Protection against fluids and infectious droplets transmission
- Our solutions for surgical face mask include filtration layers and coverstock material
- Compliant with international standards

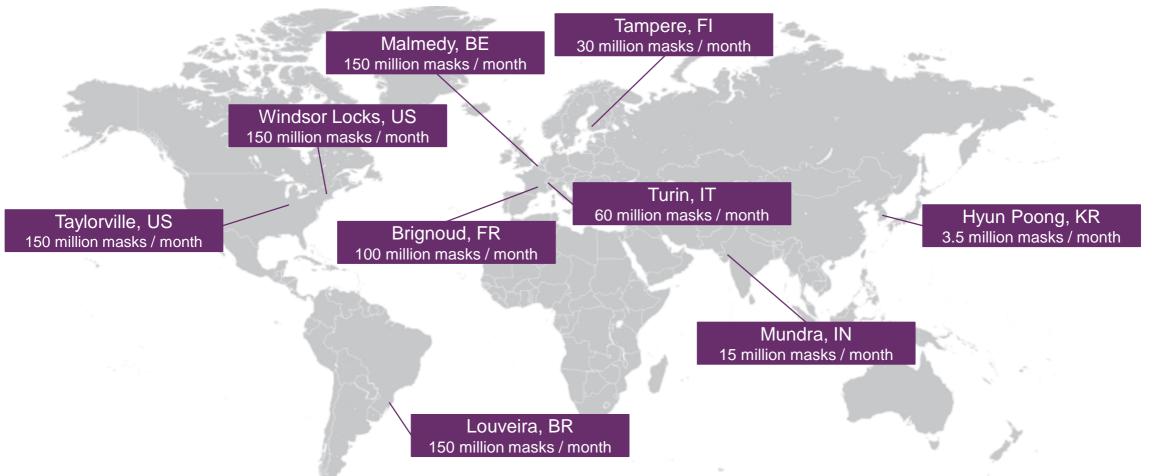

Respiratory Face Mask Material

- Respiratory mask offers the highest protection for the wearer in the workplace
- Protection against airborne infectious agents, dust, smoke and mist as well as vapors or gases that are health hazards
- Our solutions for respiratory masks include filtration layer, reinforcement layer and coverstock
- Compliant with international standards

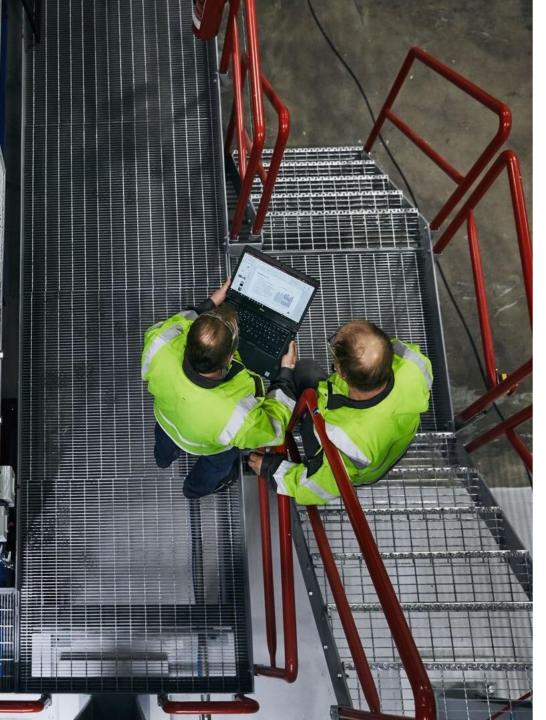

Expanded manufacturing capability of face masks materials to support the healthcare industry globally

Costs analysis and raw material price development

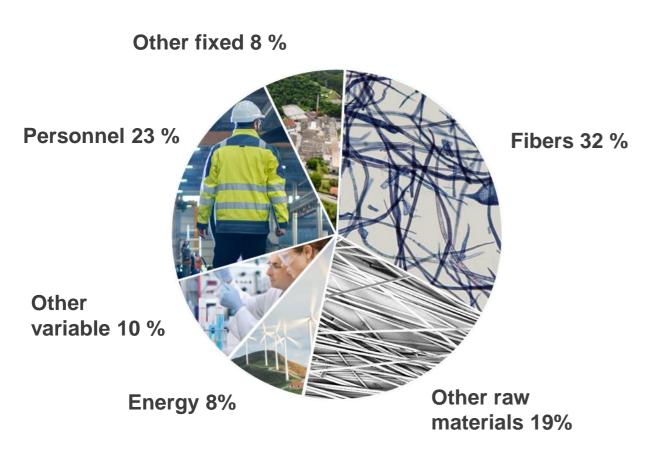

Streamlining of manufacturing fixed costs – EUR 20 profit improvement program

- Expansion through a merger and acquisitions
 - Exceeded the promised synergy benefits
- EUR 50 million cost savings program completed ahead of schedule
- The market environment has been challenging, impacted by volatile raw material prices, lower demand and intensified competition
- Benchmarking of the plants shows improvement potential in fixed cost efficiency of manufacturing
- A longer-term profit improvement program
 - Annualized target in the range of EUR 20 million with gradual impact from end of 2020 onwards

Exploring strategic alternatives for Decor business

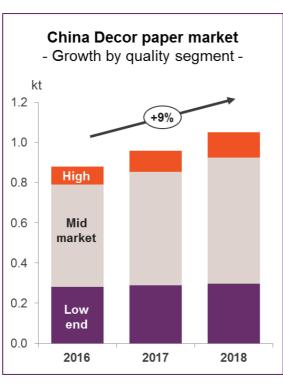

Strong in Europe and Americas, leading brand globally

Chinese decor paper market – the growth engine of the global decor paper market

- After two decades of remarkable growth, China is today the worlds largest Decor paper market
- CAGR 2008-18: 21%!
- Demand surpassed 1 million ton 2018
- Around 2/3 of the projected future global growth (5 yrs) will come from China (+250 kt)
- The high-quality segment is growing significantly faster than the overall market (>15%)
- Limited growth in low-end (1-2%)

Exploring strategic opportunities for Decor business

- Partnering with a Chinese supplier would be based on strong strategic and financial rational
 - Create a stand-alone global leader with strong presence in the world's two largest markets
 - Leverage Ahlstrom-Munksjö's leading brand and capabilities to build a leading position in the fastgrowing Chinese high-end market
 - Strengthen the business and abilities to serve our customers in the short- and long-term
- Investigating the possibility to attract outside capital into the Decor business
 - Speed up the execution of strategy
 - Outside capital will enable investments to grow and develop Decor business and strengthen our operations into a stand-alone global operation
- Enable us to remain an attractive employer

Non-binding letter of intent to acquire Chinese decor paper producer Minglian

Minglian New Materials – a state-of-the-art greenfield decor paper plant

- Debt free price approximately EUR 60 million
- Non-binding letter of intent, subject to further due diligence
- Transaction completion expected in H1 2020

Combining Minglian with existing Decor business

- Strong presence in the world's two largest decor paper markets
- Improve cost competitiveness.
- Leverage Ahlstrom-Munksjö's leading brand and capabilities in the large and rapidly growing Chinese market
- Strengthen Ahlstrom-Munksjö's ability to serve international customers both in the short- and long term
- Provide technical and operational expertise to Minglian
- Strengthen Minglian's commercial opportunities in the domestic high quality segment and adjacent export markets

Better performance

Functioning better than alternative solutions

Trinitex® Advance W3200 is a unique gas turbine filtration product specifically designed for pulse jet gas turbine applications.

Extia® 1000 is the first product on the Extia® platform, a range of highly durable filtration media, specifically designed for industrial filtration applications. Extends filtration lifetime by over 40%.

ViroSēI™ Breathable Viral
Barrier fabric is constructed for
the most critical areas of a
surgical gown designed to
keep medical professionals
protected and comfortable.

Optilam™ is an antistatic release material used during the lamination process of RFID prelaminated inlays, improving the final quality of the inlay. It is a sustainable alternative to plastic release films.

Safer materials

Comprising safer materials than alternative solutions

Grease-Gard® FluoroFree® papers are designed to deliver outstanding grease resistance without the use of fluorochemicals (PFAS).

TEX-STYLE – the first product in the RE-VOLUTION range, a new category abrasive backings of paper substituting cloth backings.

Pre-impregnated, formaldehyde-free foil base papers are suitable for furniture, doors, separation walls, ceilings and wall paneling.

ParaFree™ Wax Alternative Papers are paraffin wax free, reducing the dependency on petroleum-based ingredients.

Fewer resources

Consuming fewer resources than alternative solutions

Specimen collection cards provide an alternative solution to liquid sampling. By removing the need for cold chain and special transport, they can be used for DNA screening, the diagnosis of genetic diseases, and others.

Acti-V® supercalendered release papers for silicone coating play an active role in the silicone curing and anchorage process. Curing is faster and requires less catalyst. Anchorage is stronger and more stable.

HighFlow Wind Energy is a platform of reinforcement fabrics for lightweight composite materials, allowing a reduction of about 15% in total cost ownership in wind mill blade manufacturing.

Disruptor ® – product line of electrodsorptive filter media that improves water quality through a natural positive charge.

Lower impact

Lower impact than alternative solutions

Fiber+ a plastic free, compostable tea bag materials product range, a solution for every application and covers all manufacturing platforms.

GreenPod™ - compostable plastic free coffee pod material for espresso.

CelluStraw™ U is a new fiber-based solution for U-shaped paper drinking straws, enabling the food industry to provide consumers an alternative to single-use plastic straws.

Coralpack compostable, grease resistant wrapping papers reduce the environmental impact of packaging waste.

Businesses

Filtration

Demand drivers

- Mileage driven, growing truck and passenger car fleets
- Transportation: more stringent emission regulation, new filter applications in electrical mobility
- Industrial: higher air quality standards

Strengths

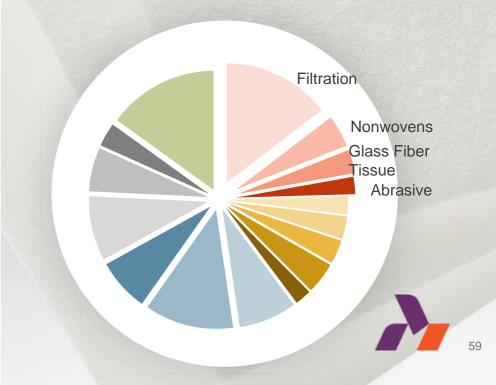

- Global leadership engine filtration
- Growing position in industrial air filtration
- Unique know-how enabling tailor-made developments for engine filtration customers
- Wide and unique technology platform and strong R&D capabilities in industrial filtration

Going forward

- Filtration seeks to further reinforce its global leadership in engine filtration and grow in China and elsewhere
- The industrial filtration will be expanded, and new filtration applications developed to capitalize from the electrification of mobility

The **Filtration business** develops and produces high-performance filtration materials for engine oils, fuels and air, as well as industrial air, used in vehicles or for industrial purposes. The Filtration business also has applications and is further developing filtration solutions for hybrid and fully electric vehicles. In transportation applications, sales come primarily from the aftermarket. The business operates globally.

- Market position #1-2
- Average market growth 2-5% p.a.

Nonwovens

Demand drivers

- Construction and need for energy efficient materials
- Shift from paper to nonwoven wallcoverings, increased use of personalized design in high-end wallcoverings
- Consumer spending

Strengths

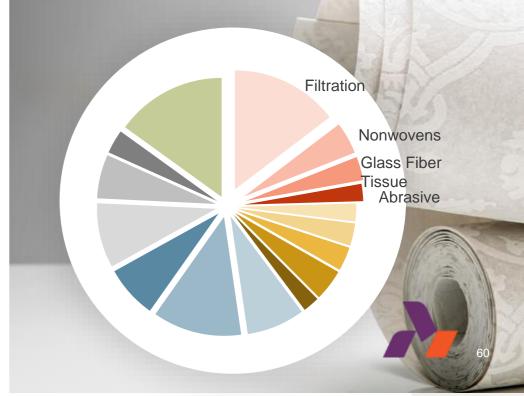

- Leading position in the high-end wallcoverings market in Europe and Asia
- Differentiated offering for growing plasterboard applications
- Ability to tailor-make products to meet specific customer needs

Going forward

- Grow significantly in the plasterboard segment and explore new niches in for example furniture laminates
- To further strengthen the position in high-end and digital wallcoverings materials

The **Nonwoven** business produces a wide range of materials for various applications including high-end wallcoverings, automotive interiors, plasterboard and flushable wipes. Key markets are Europe and Asia.

- Market position #1 in high-end wallcoverings
- Average market growth 2-3% p.a.

Glass Fiber Tissue

Demand drivers

- Construction and renovation activity
- Growing popularity of luxury vinyl tile (LVT) flooring solutions, especially in North America
- Substitution from other flooring reinforcements such as mineral felt, especially in North America

Strengths

- Unique glass fiber tissue production technology
- Agile customer service and close customer relationships

Weak position in Fabrics

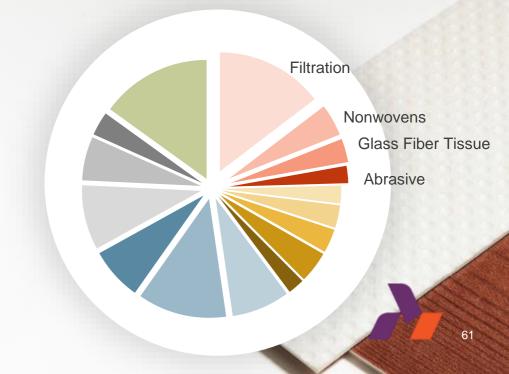

Focus on quality and delivery flexibility

Going forward

 Defend global leadership in glass fiber tissue for flooring applications and expand portfolio of applications for glass fiber tissue. In fabrics, seek product differentiation, e.g. through new product launches and increased customization.

The **Glass Fiber Tissue** business produces glass fiber tissue, mainly for flooring applications, and a range of building and transportation related end-uses. In flooring applications Ahlstrom-Munksjö targets global markets.

- Market position #1 in flooring
- Average market growth 3-8% p.a.

Abrasive

Demand drivers

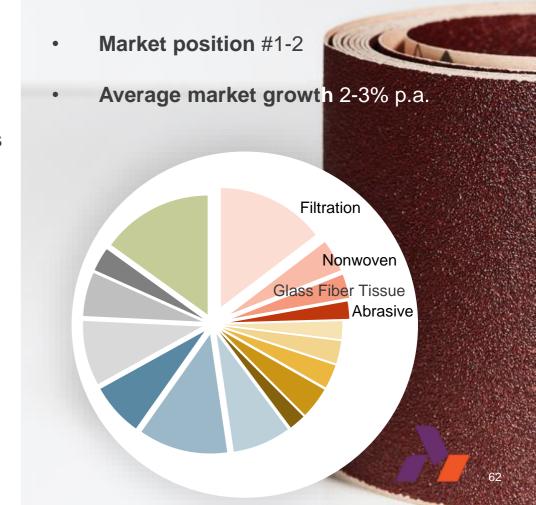

Demand is driven by automotive, wood, furniture and construction industries

Strengths

- Only supplier offering full range of paper and composite backings for the production of abrasive shapes in do-it-yourself or industrial channels
- 100% formaldehyde free offering
- Innovative paper backings in Light Weight latex paper segment and in Heavy Weight paper segment

Going forward

 Profitable growth through innovative product differentiation and mix improvement as well as continuous improvement in production and value based pricing The **Abrasive** business produces specialty papers used as backings for abrasive products used in industrial and do-it-yourself sanding applications. In the Abrasive business Ahlstrom-Munksjö targets global markets. The Abrasive business also includes fine art papers under the brand name Arches[™] and printed decor papers.

Liquid Technologies

Demand drivers

- Increase in testing for environmental and health monitoring.
- Patient-friendly procedures, performed at home
- Quick, cost-effective solutions for healthcare
- Safer drinking water, rising quality standards for food and liquids

Strenghts

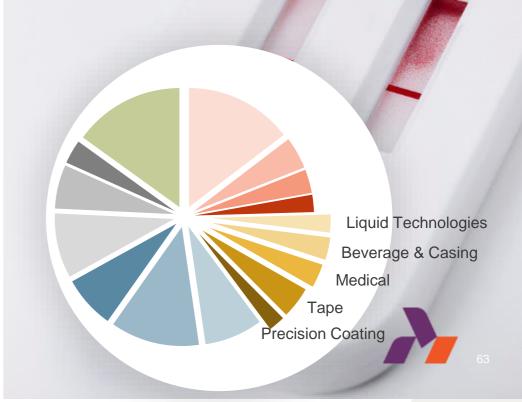

- Disruptor proprietary technology in water purification
- Alternative solution to liquid sampling by avoiding cold chain and special transport of specimen to be used for i.e. diagnosis of genetic diseases and DNA screening. New components for rapid test kits that extend this technology into pregnancy tests, infectious diseases and drug monitoring.
- Full range service for laboratory filters; cost-effective solution to increase hot cooking oil quality

Going forward

 Market position in life science and laboratory segment will be strengthened through further product development and partnerships with e.g. kit assemblers. In liquid purification, the business will continue to penetrate the water purification market through more end-use applications. The **Liquid Technologies** business produces high-quality filters for laboratory sample preparation and life science diagnostics materials, used by laboratories and manufacturers of rapid test kits, in addition to high-performance media for water purification devices.

Average market growth 1-10% p.a.

Beverage & Casing

Demand drivers

- Consumers increasingly seek sustainable alternatives
- Stricter food safety and chemical regulations
- More demanding packaging functionality and barrier properties

Strengths

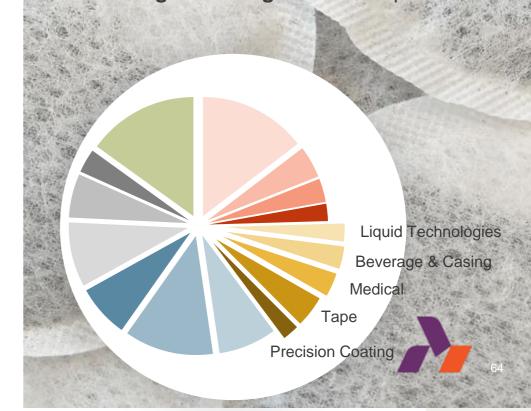

- Unique plastic-free biodegradable and compostable offering
- Forerunner in plastic-free coffee materials
- Unique viscose technology in casing materials

Going forward

- To continue to differentiate with an unique plastic-free, biodegradable and compostable tea bag materials and single-serve coffee solutions offering
- To further develop and grow in the fibrous casing material segment
- Invest to improve manufacturing capability and efficiency in tea and coffee filter materials as well as in increased capacity

The **Beverage & Casing** business makes material for tea bags and coffee pods and casings with a focus on sustainability. Key markets are in Europe and North America, while the business is global.

- Market position #1-2
- Average market growth 2-8% p.a.

Medical

Demand drivers

- High-risk surgeries increasing
- Liabilities around infections and contamination
- Rigorous regulatory requirements
- Increasing use of single-use protection

Strengths

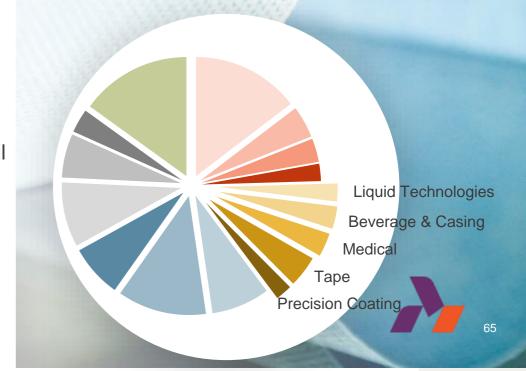

- Leading in high protective fabrics for high risk surgeries
- Leading position in sterilization wrap market in Europe
- Experienced team and strong product development capabilities
- Multi-technology platform approach

Going forward

- Continue to expand with personal protective apparel fabrics as well as increasing market share in surgical drapes and gowns.
- Strengthen leading position in Europe in sterile wraps and grow as a solutions provider through an enhanced service offering
- Grow in Asia through improved customer service and local converting footprint

The **Medical** business makes medical fabrics used in sterile barrier systems, drapes, gowns, facemasks and sterilization wraps, all used primarily in surgery but also in cleanrooms and laboratories. Ahlstrom-Munksjö targets global markets.

- Market position #1-3
- Average market growth 3% p.a.

Tape

Demand drivers

- Home construction and renovation activity
- Growth in automotive and electronics industries
- Growth in e-commerce

Strengths

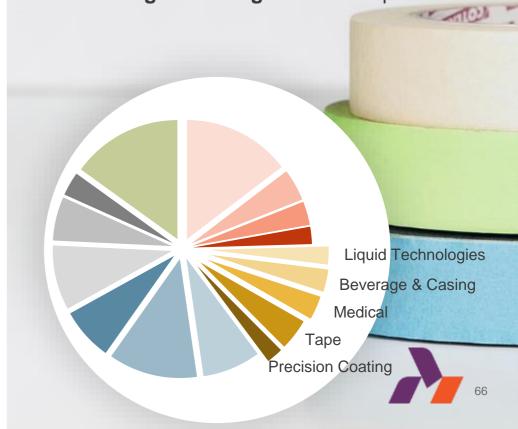

- Close customer relationships
- High and consistent quality in products and services
- Strong brand and comprehensive product range
- Cost competitive

Going forward

- Consolidate product portfolio and optimize expanded global manufacturing footprint after Expera and Caieiras integration
- Growth in packaging tape segment by developing sustainable alternatives to replace plastics
- Leverage the competitive manufacturing in China in general purpose masking tape segment in Asia
- Continue product mix improvement with existing customers through a comprehensive offering in both general purpose and specialty masking tape

The **Tape** business offers tape backings to masking and packaging tape manufacturers used in the construction and automotive industries, packaging applications for e-commerce and for specialty purposes. Ahlstrom-Munksjö targets global markets.

- Market position #1
- Average market growth 3-5% p.a.

Precision Coating

Demand drivers

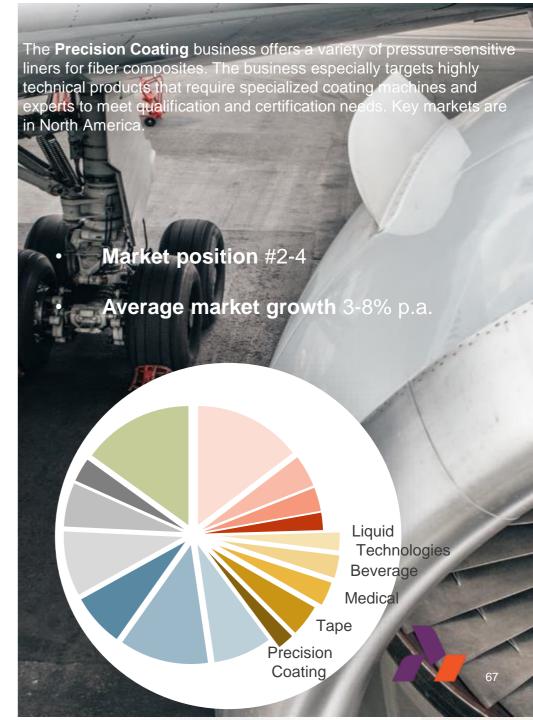

- Increasing use of composite materials in the aerospace industry
- Increased use of self-adhesive fasteners in industrial and home applications
- E-commerce drives demand for packaging tapes and labels

Strengths

- Leading North American market position
- High degree of technical complexity and customization
- Strong innovation and product development capabilities

Going forward

 Work proactively with customers, focus on brand owner and enduser collaborative innovation

Industrial Solutions

Insulation

- Electrotechnical

Demand drivers

- Extension and upgrade of power distribution networks
- Decentralization of power generation and power grids
- Urbanization and construction activity drives power equipment investments

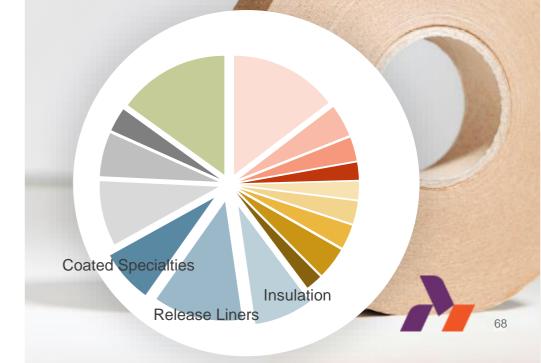

Strengths

- Broad portfolio of electrotechnical papers
- Internally sourced high quality, pure and clean pulp
- Technical knowledge of power equipment end-uses

Going forward

 In electrotechnical insulation papers, converting capability and overall capacity will be expanded to drive profitable growth. In addition, continuous improvement for operational efficiency and value-based price management is pursued. The **Insulation** business supplies electrotechnical insulation papers to manufacturers of transformers and high voltage cables globally. It also produces thin papers used as interleaves and specialty long fiber cellulose pulp.

- Market position #1-2 in electrotechnical papers
- Average market growth 2-3% p.a.

Industrial Solutions

Release Liners

Demand drivers

- Economic growth, growing middle class
- E-commerce drives logistics and need for labels in tracking and identification
- In industrial segments growth is driven by tapes, medical and composites

Strengths

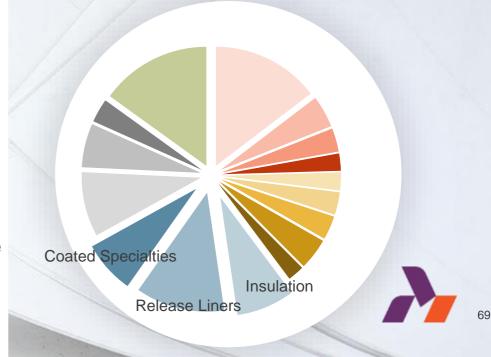

- Superior customer relationships
- Quality and service
- Sustainable products

Going forward

- Focus is on operational excellence and continuous improvement in performance
- Build on Ahlstrom-Munksjö's strong global platform, particularly in technical release liners for specialty industrial applications, to seize attractive opportunities
- Expand geographically outside of Europe

The **Release Liners** business produces papers that after coating can be used to carry self-adhesive labels or for manufacturing and assembling adhesive components in industrial processes. Key markets are Europe and selected export regions.

- Market position #2
- Average market growth 4% p.a.

Industrial Solutions

Coated Specialties

Demand drivers

- Increasing need of packaging, tracking and identification in supply chains
- Packaging functionality
- Private consumption, sustainable alternatives replacing plastics
- Demographic and purchasing power development in Brazil and South America

Strengths

- Customer relations with both regional and global players
- Strong local platform in the South American market
- Product range and development

Going forward

- Further increase efficiency by continuous improvement and key investments supporting product mix strategy, capturing a larger part of the high-value coated specialties segment
- To secure benefits from Caieiras integration in terms of market, operations, and competence sharing

The **Coated Specialties** business manufactures coated label papers, flexible packaging papers for fast-moving consumables and processed foods, as well as office, printing and writing papers. Key markets are Europe, South America and Asia.

- Market position #2-4 in coated specialty papers
- Average market growth 2-4% p.a.

Food & Technical Solutions

Food Packaging

Demand drivers

- Sustainability, recyclability, alternatives to plastics
- Stricter food safety and chemical regulations
- Packaging functionality
- Move toward unbleached papers

Strengths

- Strong innovation and product development capabilities
- Broad range of products and capabilities
- Leading North American market position with integrated pulp production

Going forward

- Work proactively with customers, focus on brand owner and enduser collaborative innovation
- Utilize asset base optimization

The **Food Packaging** business offers a broad range of specialty papers and unique capabilities for quick service restaurant, food processing, cooking and baking, and flexible packaging markets. Key markets are in North America and Europe.

- Market positions #1-3
- Average market growth 1-3% p.a.

Food & Technical Solutions

Technical

Demand drivers

- U.S. construction and infrastructure activity, particularly homebuilding
- Trends in residential and commercial building segments, and changing building codes
- Increased use of LCD/other displays and continuing need for higher quality materials
- Sustainability in packaging
- Trends and changes in textile production and printing

Strengths

- Leading North American market position
- High degree of technical complexity and customization
- Strong innovation and product development capabilities

Going forward

- Leverage R&D, Product Development, and capability strengths to address changing needs
- Utilize asset base optimization

The **Technical** business produces specialty products used for a wide variety of industrial and construction applications. The product portfolio includes glass interleave papers, saturating bases, laminating bases, dye sublimation papers, and other industrial packaging fiberbased solutions. Key markets are in North America, in addition to selected export regions. Matket position #1-2 Average market growth 1-3% p.a. Parchment Technical Food Packaging

Food & Technical Solutions

Parchment

Demand drivers

- Private consumption, push towards sustainable alternatives
- Brand-owners seeking cellulosic solutions with intrinsic barrier properties to replace plastics
- Stricter food safety and chemical regulations

Strengths

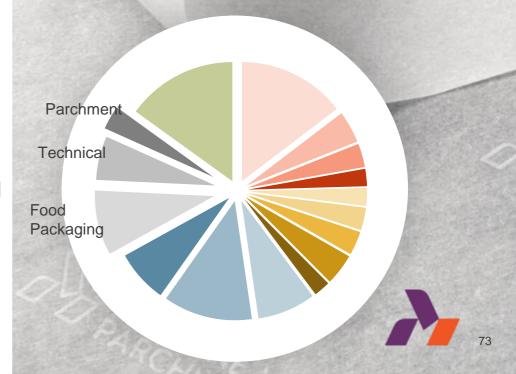

- Capabilities helping customers to differentiate
- Leading brand
- Unique technical characteristics of parchment paper

Going forward

- To leverage on the technical characteristics of parchment paper and consolidate and expand leadership in baking and cooking
- Expand the use of parchment paper to non-food adjacencies

The **Parchment** business produces a broad portfolio of sustainable vegetable parchment solutions for food and industrial applications. The product portfolio includes cooking and baking papers, pan liners, trays and molds. Key markets are in Europe and North America.

- Market position #1 in baking and cooking
- Average market growth 2-3% p.a.

Decor Solutions

Decor

Demand drivers

- GDP growth, impacting residential home starts, commercial building projects and renovation
- Rapidly growing middle class in developing markets driving construction and furniture demand
- Interior design trends
- Substitution from solid wood, veneer and plastic foils

Strengths

- Industry leading brand, based on capabilities, service and quality
- Strong positions in Europe, North and South America
- Diverse, high-quality product and service offering
- Global leader in solid colors and pre-impregnated papers

The way forward

- Grow and strengthen leading positions in Europe and North America
- Establish a strong growth platform in South America
- Enter China market

The **Decor** business produces paper in a wide range of colors, grades and grammages for decorative applications mainly used in laminated furniture, flooring and interior applications both for technical and esthetical purposes. Key market is Europe and selected export markets.

- Market position #2-4
- Average market growth 3% p.a.

History

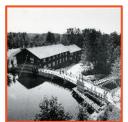

History of Ahlstrom-Munksjö

Over 160 years of industrial leadership

1851 Antti Ahlström starts his business

1862
The first
Munksjö
paper mill is
established
in Jönköping
by Johan
Edvard
Lundström
och Lars
Johan Hierta

1896

After Antti's death, his wife Eva Ahlström becomes one of the first female industrialists in Finland

1908

A. Ahlström

Osakeyhtiö

is established

1960's Ahlström's internationalization starts through acquisition in Turin, Italy

1987-2000
Ahlström
focuses on
specialty
papers and
fiber solutions
by divesting fine
paper and
paper
machinery
businesses and
acquiring e.g.
Sibille-Dalle and
Dexter

businesses

History of Ahlstrom-Munksjö

Constantly re-imagining fiber

2006

Ahlstrom Corporation listed on Nasdaa Helsinki

ANDMERIC

2001

Ahlström demerges into Ahlstrom Corporation, **Ahlström** Capital Oy and A. **Ahlström** Osakeyhtiö

Munksjö purchases ArjoWiggins' decor, thin print and fine art paper, and abrasive backings businesses in France and Germany

2013

Ahlstrom's label and processing business merges with Munksjö

2017

Ahlstrom and Munksjö merge into Ahlstrom-Munksjö

2019

Expera and Caieiras acquired to strengthen regional growth in North and South America

We continue to imagine fiber in a sustainable manner
