FibRoc[®]

Ceiling

High Performance Materials
for Durable Applications

AHLSTROM
MUNKSJÖ

Introducing FibRoc® Ceiling.

Delivering security of supply, we are a global supplier with two glass nonwoven and two wetlaid nonwoven manufacturing lines capable of producing a wide variety of high quality materials for the Ceiling market.

Our glass nonwoven lines utilise unique foam forming technology and are located in Karhula, Finland and Tver, Russia.

Our wetlaid nonwoven lines are located in Ställdalen, Sweden and Brignoud France, where we also manufacture needlepunch nonwoven products.

Comprehensive portfolio

FibRoc® is a comprehensive range of nonwovens offering the best solutions for different Ceiling segments.

Our extensive offering includes:

SOLUTIONS FOR Mineral Wool & Wet Felt Ceilings

- > Facings
- > Backings

SOLUTIONS FOR Plasterboard Ceilings

- > Facings
- > Perforated Backings
- > Monolithic Backings

SOLUTIONS FOR Perforated Wood & Metal Ceilings

- > Backings

Manufacturing platforms for the FibRoc® portfolio are fully certified for quality (ISO9001), safety (OHSAS 18001), and environmental (ISO14001) standards.

The benefits of FibRoc® Ceiling.

Noise reduction – excellent level of noise reduction, delivering acoustic comfort within a room

Fire resistance – meets compliance with all necessary standards

Versatile manufacturing technology – enabling flexible development and customized solutions for customers

Sustainable – portfolio contains solutions with formaldehyde free binders

Security of supply – several qualified manufacturing platforms

Ahlstrom-Munksjö has an extensive technological platform, as well as the ability and flexibility to make a wide range of fiber-based solutions for multiple applications.

If you can't find the product you need in the folder, please contact us. We'd like to further understand your unmet needs and with our wide capabilities, develop a solution together.
