

Nonwovens for  
**ACOUSTIC CEILINGS**

**AHLSTROM  
MUNKSJÖ**

## Introducing our new generation of nonwovens for acoustic ceilings.

Nonwovens are used as facings or backings for the tiles on plasterboard, wood, and metal acoustic ceilings. Our nonwoven materials are available in a variety of colors, basis weights, sizes and with different surface treatments. In addition to absorbing noise and reducing echo, they also stop dust from the plenum falling onto the floor.

Ahlstrom-Munksjö supply glass and other nonwovens for mineral wool ceiling applications as backing or facing layers.

### Our products offer these key benefits:

- ✔ Non-combustible, sound-absorbing, facing and backing layer
- ✔ Backing layer prevents powdering and itching making products safe and comfortable to install and use
- ✔ Complies with building codes for international fire reaction tests, helping architects meet global standards
- ✔ Reduces sound transmission from one room to another

Ahlstrom-Munksjö is a global leader in fiber-based materials, supplying innovative and sustainable solutions to customers worldwide. Our offerings include decor paper, filter media, release liners, abrasive backings, nonwovens, electrotechnical paper, glass fiber materials, food packaging and labeling, tape, medical fiber materials and solutions for diagnostics. Combined annual net sales are EUR 3 billion and we employ 8,000 people. The Ahlstrom-Munksjö share is listed on the Nasdaq Helsinki and Stockholm. The company was formed on April 1, 2017 through the merger of Ahlstrom Corporation and Munksjö Oyj. Read more at [www.ahlstrom-munksjo.com](http://www.ahlstrom-munksjo.com)
