

Nonwovens for  
**PLASTERBOARD**

AHLSTRÖM  
MUNKSJÖ

# Introducing our new generation of fire-resistant and wet-resistant facers for plasterboard.

Whatever the conditions, Ahlstrom-Munksjö's innovative nonwovens for plasterboard will help you do a better job.

Processed as a standard facer, our glass and other nonwovens comply with the most stringent fire regulations for metal stud wrapping or where fire resistance is required in public buildings.

In the growing market sector of materials for wet and humid conditions, our glass and other nonwoven facers will help open up new market opportunities for you.

## Our fire-resistant materials offer these key benefits:

- ✔ Allow the board manufacturer to comply with fire resistance codes and access stringent commercial markets
- ✔ Easily processed engineered facer optimizes plant efficiency
- ✔ Available in 100% glass nonwovens for the most demanding fire applications
- ✔ Also available as a facer with top cellulosic layer which reduces glass itchiness, and facilitates easier handling
- ✔ Light in weight, makes product easy to work with
- ✔ Smooth surface facilitates direct painting
