This has been confirmed through detailed analysis of the formulation and Safety Data Sheets for all ingredients, a signed manufacturer statement(s), and a screening test showing a maximum of 100 parts per million (ppm) total fluorine as a proxy for PFAS (unless demonstrated to be from naturally-occurring fluorine).

This Certificate authorizes the Licensee to use the BPI Certification Mark to support claims of commercial compostability for items in the following category or categories:

Components - Coffee Pod Filters

Only items with the specific stock keeping units (SKUs) or item numbers found on the attached product list and Ahlstrom NA Specialty Solutions LLC's listing in BPI's online product catalog are covered under this Certificate:
